

As a Med III student at “Vienna-Austria University”, I had no idea where to apply for this training until I heard from some students that they had a great experience in Lebanon. In fact, from my first day at AUH, I was impressed by how serious, knowledgeable, meticulous, routinated and hard working doctors here are.

Lebanese Med students organized a lot of activities to get us to know Lebanon and its beauty and it was unforgettable. I actually never thought that this training would be as much enriching, fun and social it was.

My advice to the next Med III generation: Come Over!

Elissa Harik
Medical School of Vienna
July 25 – August 28, 05
Rotated in the Divisions of Plastic, Cardio and ER
