

I'm Anna Sypula, exchange student from Norway / Poland.

I've spent 4 weeks at AUH as an exchange student. I spent 2 weeks in the ER and 2 weeks in Plastic Surgery. Unfortunately not much happened in the ER during the days, but when the patients arrived the doctors did everything to teach us everything they knew. The doctors had always time to explain me things and were really helpful. The only sad thing was that we were only observing.

For me, Plastic Surgery was totally new experience as it is not as common at home as here. I learned a lot and got to know the "Plastic Surgery Culture".

Overall, I had a great experience and learned a lot. Thanks to all in AUH.
